## **COMMENTS**

The enclosed is responsive to the Examiner's Office Action mailed on February 24, 2005. At the time the Examiner mailed the Office Action claims 31-75 were pending. By way of the present response the Applicants have: 1) amended claims 39, 46, 49, 50, 52, 61 and 70; 2) added no new claims; and 3) has not canceled any claims. As such, claims 31 – 75 remain pending. The Applicants respectfully request reconsideration of the present application and the allowance of all claims now presented.

### **Drawings**

In the Office Action mailed February 24, 2005 the Examiner objected to Figures 1, 2 and 3 for including the label "prior art". See, 2/24/04 Office Action, pg. 2. The Applicant has included herewith proposed changes to each of Figures 1, 2 and 3 so that each now includes the label "prior art". The Applicant respectfully submits that incorporation of these proposed changes are sufficient to remove the Examiner's objections to the drawings.

### **Objections to Claims**

See, 2/24/04 Office Action, pg. 2. The Applicant has amended each of these claims so as to conform

to the Examiner's requirements. As such, the Applicant respectfully submits that the objections to the claims should be removed.

### **Substantive Rejection of Claims**

In the Office Action mailed by the Examiner on February 24<sup>th</sup> the Examiner rejected each of the Applicant's claim under a non statutory double patenting theory in light of U.S. Patent No. 6,608,836 (the '836 patent). See, 2/24/04 Office Action, pg. 3. In response, the Applicant has herewith filed a terminal disclaimer for the present application in light of the '836 patent. The Applicant respectfully submits that in light of the terminal disclaimer being filed herewith, the double-patenting rejection applied against the Applicant's claims should be removed.
